

Sogefi has been awarded the best supplier for cost support at the Honda Power Supplier Convention 2016

Guyancourt, 22nd April 2016 - During the Honda Power supplier convention 2016 held on 26th February in Noida - India, Sogefi has won an award for its performance in "Cost support" for Air filter assembly being supplied to petrol water pumps to WB15X and WS20X models.

The air filter assembly has been imported for many years by Honda Power. One of the major reasons for the business award is the confidence Sogefi have enforced with the Honda Team for sourcing from Sogefi India thereby adding cost benefits when compared to the cost of imports and for flawless execution.

Through this project, Sogefi has offered a high performance air filters with cellulose and oiled foam media to meet and exceed Honda power specifications for DHC, efficiency and pressure drops.

Sogefi has proved their competitive advantage on fast and flawless development, with a swift time to market and speed of response: another value added at his technical excellence expertise in filtration performance.
