

## **Sogefi: the group's first Sustainability Report is online**

The Sogefi group's first Sustainability Report, for the year 2015, is online on the website [www.sogefigroup.com](http://www.sogefigroup.com). It was prepared in accordance with the "G4" guidelines published in May 2013 by the Global Reporting Initiative (GRI). The document gives a quantitative and qualitative account of the group's activities in the economic, social and environmental spheres and of its commitment to creating sustainable value over time.

The main purpose of the Sogefi Group's Sustainability Report is to further consolidate the dialogue between the group and all its stakeholders with the disclosure of information of a non-financial nature. The document, which begins with a letter to the stakeholders from Chairman Monica Mondardini and Chief Executive Laurent Hebenstreit, contains seven chapters: a profile of the group, economic responsibility, focus on quality and safety, innovation and product responsibility, people in the Sogefi Group, environmental impact of operations, responsible procurement practices.
