

Sogefi among the winners of the Premio Industria Felix

Sogefi is one of the companies from Lombardy to be recognized on the occasion of the first edition of the Premio Industria Felix. The award was given for "entrepreneurial excellence" in the region based on the annual reports for 2015 of 31,000 Lombard companies with sales of between 2 and 19.7 billion euro. Around 50 companies received awards.

Sogefi, in particular, received a mention for the best gross operating margin (EBITDA) posted among companies with registered office in the province of Mantua.

The award was collected by the CEO of Sogefi Italy Mauro Prodi at a ceremony held in Milan at the headquarters of Confindustria Lombardia, who were patrons of the initiative together with the Luiss Guido Carli University. In his message of appreciation, Prodi underlined Sogefi's Lombard and Italian roots and noted the company's production presence in the country as well as its global reach and international presence.
