

Sogefi at Automechanika Frankfurt

Sogefi's latest filters and modules are showcased at the most important IAM exhibition in September 2016.

Sogefi are excited to take part in the Automechanika Frankfurt show where we will exhibit our products and services on stand C71 in Hall 4 from September 13th to 17th.

Special visibility will be given to the new products, such as the new oil filter for Audi-Porsche, the new diesel filter for Jaguar-Land Rover and Ford, and for the first time in the world the new diesel "panel" filter for Ford. We are proud to show our new OE filters as well as fitments for the IAM.

In the aftermarket sector Sogefi benefits from our OE products that are present on 8 out of 10 of the best selling cars sold in Europe in 2015. The same quality is delivered to Aftermarket workshops through our filtration portfolio of brands: Purflux, FRAM, CoopersFiaam, Tecnocar and Sogefi Pro.

Our company's expertise as OE supplier to the world's top vehicle manufacturers is seen in the quality of our aftermarket parts, service and repair network, and our training and aftersales.

Highlights of the Sogefi stand will include:

- New products available for IAM and OE market.
- Video displaying Sogefi's complete aftermarket portfolio, including access to its updated new version of the online catalogue, as well as 3D training material.
- Up to date sales and technical documentation.

Come to visit us at Stand C71 Hall 4.
