

Sogefi presents its latest innovations at Automechanika Frankfurt 2018

Sogefi, the automotive component company of CIR Group, is welcoming partners and customers to visit its **stand C71 in Hall 4.0** during Automechanika Frankfurt show from September 11th to 15th.

At Automechanika 2018, Sogefi will show its new development in filtration systems in term of **technological innovations, OE expertise, protection of the environment and new digital experience**.

The **latest products equipped on premium models** like Audi, Porsche, Maserati, **new PSA** new engines (**Peugeot, Citroën and Opel**) and **Ford Transit 2.0l**, confirms its leadership among the Automotive market. Sogefi is offering via its aftermarket division, a wide and specialized European car parc range coverage.

At our booth, you will discover also our new digital experience on our brands: **Purflux, FRAM®, Tecnocar, CoopersFiaam and Sogefi Pro**. A complete portfolio of brands that offers genuine added value to all customers.

Come to visit us at Stand C71 Hall 4.0 to have a dedicated tour guide of our innovations.
