

Sogefi Aftermarket complete filter range available for the New BMW X2

Sogefi, the automotive components company of CIR Group, has released **the complete filter range** - fuel, oil, engine air and cabin air filters - for **the new BMW X2** under the aftermarket brands: Purflux, FRAM® and CoopersFiaam.

The BMW X2 made its global debut at the beginning of 2018, quickly entering in the top sales of the compact luxury SUV segment.

Today the aftermarket customers **can order the complete filter range** for the different engine versions with the codes:

Purflux: engine air A1719, oil L1045, diesel FCS854 and cabin air filters AH428-2 / AHC428-2

FRAM®: engine air CA11888, oil CH11885ECO, diesel FCS854 and cabin air filters CF11815-2 / CFA11815-2

CoopersFiaam: engine air PA7822, oil FA6146ECO, diesel FCS854 and cabin air filters PC8408-2 / PCK8408-2.

Sogefi strives to make all filters available for the independent aftermarket a few months after the vehicle release. In conjunction with its continuous customer support, Sogefi is committed to constantly update product lines and maximize logistic, marketing, commercial and promotional support.

The brands portfolio offers added value to all customers in terms of product quality, service experience and customer care.
