

Sogefi Filtration presents its latest innovations at Automechanika Russia - MIMS

Sogefi's latest filters and modules are showcased at the IAM exhibition in Russia.

Sogefi, the automotive components company of CIR Group, is welcoming partners and customers to visit its **stand F 233 in Pavilion Forum**, during **MIMS show from August 26th to 29th**.

Sogefi is one of **Europe's leading vehicle filter suppliers** addressing the needs of its partners thanks to its OE-DNA across **oil, engine air, fuel and cabin air filters** with an all makes coverage for all major **European, American and Asian carmakers**.

Its expertise as **OE supplier** can be appreciated through the quality of its **aftermarket parts** and **extensive electronic catalogues** available under the **FRAM® and Purflux** brands.

Sogefi is offering a **broad product range to Russian customers** through the **warehouse based in the Moscow area**, providing shorter shipping times as well as maximum logistical efficiency and product availability.

At MIMS 2019, Sogefi will show its new developments in filtration systems in terms of **technological innovations, Original Equipment (OE) expertise, protection of the environment and new digital experience**.

At our booth you will also discover:

- New products available for IAM and OE market
- Video displaying Sogefi's complete aftermarket portfolio
- Up to date sales and technical documentation.

Come to visit us at Stand F 233 in Pavilion Forum!
