INTRODUCTION

This Report on Remuneration Policy and Remuneration Paid (hereinafter also the “**Report on Remuneration**” or the “**Report**”) is drafted in accordance with the provisions of sect. 84-*quater* of Consob Regulation no. 11971/99 (the “**Rules for Issuers**”) and of the relevant Appendix 3 Schedule 7-bis (as amended by Consob Resolution no. 21623/20) - in application of art. 123-ter of Legislative Decree no. 58/98 (“**TUF**”), as last amended by Legislative Decree no. 49/2019 and was approved by the Board of Directors of Sogefi S.p.A. (hereinafter also the “**Company**” or the “**Issuer**”) on 17 March 2025.

In accordance with the applicable regulations, the Report is divided into two sections:

- Section I, entitled “Remuneration Policy for the Year 2025” (hereinafter also referred to as “**2025 Policy**” or “**Policy**”);
- Section II, entitled “Report on Remuneration Paid in the Financial Year 2024” (hereinafter also referred to as “**Report on Remuneration 2024**” or “**Report on Remuneration**”).

The Report is also prepared for the purposes of sect. 4.1.1 of the Company’s Rules on Related Party Transactions.

As of the date hereof, the Board of Directors is composed of 8 members: Ms. Monica Mondardini (Executive Chairman), Ms. Patrizia Arienti, Mr. Maha Daoudi, Mr. Rodolfo De Benedetti, Mr. Mauro Melis, Ms. Raffaella Pallavicini, Mr. Massimiliano Picardi, Mr. Christian Streiff, and the Board of Auditors by three members: Ms. Daniela Delfrate (Chairman), Mr. Gaetano Rebecchini, Ms. Rita Rolli.

It should be noted that as of 27 July 2024, the number of directors has decreased from 9 to 8, following the resignation of Frédéric Sipahi as Chief Executive Officer.

The Board of Directors has decided not to proceed with the co-optation of a new director pursuant to Article 2386 of the Civil Code, taking into account that the number of independent directors complies with the legislative and regulatory provisions, that the gender quotas are respected and that the entire Board is close to expiry (with the approval of the financial statements at 31 December 2024) and its renewal will be submitted to the ordinary Shareholders’ Meeting scheduled for 24 April 2025.

The Board of Directors has also decided to change its *governance* structure, also in consideration of the simplification of the Group structure following the sale of the Filtration Division.

The Group is currently structured as follows:

- (i) the holding company, Sogefi S.p.A., which controls the entire group;
- (ii) the operating subsidiary Sogefi Suspension S.A., which controls the companies operating in the Suspensions sector (the “*Suspensions Business Unit*”);
- (iii) the operating subsidiary Sogefi Air & Cooling S.a.s., which controls the companies operating in the Air and Cooling sector¹ (the “*Air & Cooling Business Unit*”).

The corporate structure of the Group can be consulted on the Issuer’s website on the page “Group Structure - SOGEFI Group”.

In light of the above, the Board of Directors (i) has entrusted the Chairman of the Board of Directors, Ms. Monica Mondardini, who already holds executive powers, with the supervision of the activities carried out by the holding company Sogefi S.p.A. (identifying the same as the main responsible for the management of the company) and (ii) has designated a *Chief Executive Officer* for each of the two *Business Units*.

In particular, the Board appointed: (i) on 23 July 2024, Mr. Michael Sebahg, *Chief Executive Officer* of the *Air & Cooling Business Unit* (designating him as *President Directeur General* of the company Air & Cooling S.a.s.)

¹ With the sole exception of the Chinese company, which operates both in Suspensions and Air & Cooling Business Unit and it is owned by Sogefi S.p.A.

and (ii) on 4 September 2024, Mr. Luigi Lubrano *Chief Executive Officer* of the *Suspensions* Business Unit (designating him as *President Directeur General* of the company Sogefi Suspensions S.A.).

The Board of Directors has entrusted the Chairman, Ms. Monica Mondardini, with the supervision of the activities carried out by the holding company Sogefi S.p.A., aimed mainly at the definition of the strategic and industrial plans, monitoring their implementation, identifying the guidelines for internal control and risk management and their implementation, assessing transactions of strategic importance, engaging in dialogue with shareholders and investors, and formulating the policy on the remuneration of *top management*. In exercising these functions, the holding company uses three central functions, namely, the financial department (divided into consolidated financial statements and reporting, *risk management* and sustainability, finance and *investor relations*), the legal department and the *internal audit*.

The two *Chief Executive Officers* are responsible for the operational management of the *Business Unit*, with the attribution of all ordinary management powers, to be exercised within the framework of the industrial plans, guidelines and policies defined by the parent company Sogefi S.p.A.

The Company has identified as Managers with Strategic Responsibilities: the *Chief Executive Officer* of *Air & Cooling*, Mr. Michael Sebah, the *Chief Executive Officer* of *Suspensions*, Mr. Luigi Lubrano, the *Chief Financial Officer*, Mr. Olivier Proust, and the Manager responsible for preparing the Company's financial reports, Ms. Maria Beatrice De Minicis.

The **2025 Policy**, put to the binding vote of the Shareholders' Meeting convened for the approval of the financial statements as of 31 December 2024 pursuant to sect. 123-ter, paragraph 3-ter, of the Consolidated Law on Finance, defines the guidelines on the remuneration of the members of the Board of Directors, the Board of Statutory Auditors and Managers with strategic responsibilities for the financial year 2025, also illustrating the bodies involved and the procedures used for its adoption and implementation, the objectives it pursues, and the contribution it can make to the Company's strategy.

In order to ensure transparency and adequate control over remuneration, any changes thereto and its implementation, the Company has adopted a governance model that envisages the involvement of a plurality of individuals and corporate bodies in accordance with the provisions of the Articles of Association, the Corporate Governance Code, the internal regulations implementing said Code (mainly Sogefi's Corporate Governance Code, the Board of Directors regulations and the Appointment and Remuneration Committee regulations) and, more generally, the applicable regulations.

The Remuneration Policy: **(i)** is defined every year by the Board of Directors, on a proposal from the Appointment and Remuneration Committee and after consulting the Board of Auditors and **(ii)** is submitted by the Board of Directors to a binding vote by a Shareholders' General Meeting.

The Committee **(i)** shall consist of at least three non-executive, and all independent directors, including the Chairman of the Committee and **(ii)** shall be appointed by the Board of Directors, taking care to ensure that its members have expertise and/or experience in financial matters and/or remuneration policies.

As at the date of this Report, the Appointment and Remuneration Committee is composed of the Independent Directors, Mr. Mauro Melis (Chairperson of the Committee), Mr. Massimiliano Picardi and Mr. Christian Streiff. As is evident from the *curriculum vitae* of the members (available on the Company's website, in the Corporate Bodies section), the committee brings together adequate expertise in financial matters and remuneration policies.

2. AIMS AND PRINCIPLES OF POLICY 2025

2.1. Aims of Policy

The Policy is aimed at:

- ensuring the Company is competitive in the labour market, enabling it to attract, motivate and retain people with the professional qualifications capable of contributing to the creation of value and the sustainable success of the Company and the Group, over the medium and long term;
- aligning the management interests with those of the Company and the Group, its shareholders and all stakeholders, in a short-, medium- and long-term perspective;
- incentivising the pursuit of sustainable success and thus of the objectives defined in the business and ESG plans approved by the Board of Directors;
- rewarding performance and merit.

2.2. Principles

With respect to the key principles inspiring this Policy:

- the remuneration of Directors, members of the Board of Auditors and *Top Management* is determined on the basis of competence, professionalism and commitment required for the tasks and responsibilities assigned to them;
- furthermore, with respect to the *Top Management*, in line with the recommendations of the Corporate Governance Code and the aims of the Policy itself, the Policy provides for:
 - o the allocation of variable components having a significant weight on the overall remuneration, linked to the sustainable success of the company in a short-, medium- and long-term perspective;
 - o the definition of objectives, to which the entitlement and disbursement of the variable components is conditioned, consistent with the predetermined and measurable strategic objectives of the Company and the Group;
 - o the definition of upper limits for the amounts payable.

2.3. Results of Voting and Investor Feedback

For the purpose of defining the 2025 Policy, the Company took into account the results of the shareholders' meeting vote and the feedback received from shareholders on the 2024 Remuneration Policy and the Report on Remuneration paid in the 2023 financial year.

This Policy continues from that of the previous year (2024), also in consideration of the vote expressed by the Shareholders' Meeting on the 2024 Policy: 91.41% voted in favour on section I and II.

3. DIRECTOR REMUNERATION

3.1. General

All directors are entitled to the fixed annual remuneration established by the Shareholders' Meeting at the time of their appointment, for the entire duration of their term.

The Board of Directors establishes, upon appointment and for the entire duration of the mandate, an additional fixed annual compensation for the members of each committee, also taking into account the role held within the committee itself.

Furthermore, the Board of Directors, upon appointment and for the entire duration of the mandate, establishes an additional annual compensation for the Executive Chairman.

In line with *best practice*, a *Directors & Officers Liability* (“D&O”) insurance policy is in place to cover the third-party liability of members of the Board of Directors.

Finally, directors are entitled to reimbursement of expenses incurred in the performance of their duties.

3.2. Chairman of the Board of Directors

The annual remuneration awarded by the Board of Directors to the Executive Chairman for her office (pursuant to art. 2389, paragraph 3, of the Italian Civil Code): **(i)** is determined as a fixed amount; **(ii)** is commensurate with the commitment required and the responsibilities assumed; **(iii)** does not include variable components; **(iv)** does not include other remunerations, equity compensations or benefits. The choice not to include variable components and other equity or benefit compensation in the annual remuneration attributed to the Executive Chairman is motivated by the current *governance* decided by the Board of Directors, which assigns to the Chairman of the Board of Directors the supervision of the strategic and financial management activities carried out by the holding company Sogefi S.p.A., entrusting the operational management to the *Chief Executive Officers* of each Business Unit.

4. REMUNERATION OF MEMBERS OF THE BOARD OF STATUTORY AUDITORS

The annual emolument of the members of the supervisory body shall be determined by the Shareholders’ Meeting for the entire duration of the term as a fixed annual amount on the basis of the competence, professionalism and commitment required by the tasks and responsibilities assigned to them.

Furthermore, in line with *best practice*, a D&O insurance policy is in place to cover the third-party liability of members of this body.

The members of the Board of Auditors shall be entitled to reimbursement of the expenses incurred in the performance of their duties.

5. REMUNERATION OF THE MANAGERS WITH STRATEGIC RESPONSIBILITIES

The annual remuneration of the Managers with Strategic Responsibilities shall consist of the following components: **(i)** fixed remuneration; **(ii)** variable annual remuneration (MBO), based on the achievement of specific economic and financial performance objectives based on the Group’s budget, functional to the achievement of the objectives of the medium-long term business plans, as well as specific personal objectives of a non-economic-financial nature assessable on an objective basis; **(iii)** the medium-long term variable component (LTI), consisting of participation in medium-long term incentive plans based on shares (*stock grant plans*) and/or monetary components.

The *pay mix* of the overall remuneration of Managers with strategic responsibilities provides (assuming the amounts of MBO at *target* and the current value of the *unit* attributed under the stock grant plans) a weight of the variable component between 40% and 50% (of which half is long-term).

It is also provided that Managers with strategic responsibilities (in line with other executives of the Company), depending on the regulations applicable to them in their country of residence, may be beneficiaries of: **(i)** indemnities in the event of death, disability and sickness, accidents (including non-occupational), under specific agreements signed by the Company or the applicable collective agreement, **(ii)** health care (provided through a dedicated assistance fund to which the Company and the beneficiary contribute) **(iii)** supplementary pension coverage (fed by contributions from both the Company and the beneficiary), **(iv)** assignment of a company car for mixed use.

It should also be noted that, in general, the Policy does not provide for specific agreements regulating the termination of the employment relationship, deferring to the provisions of the applicable laws and collective agreements.

For two Managers with strategic responsibilities, there are provisions of this nature, the result of agreements dating back over time: in particular, **(i)** for one manager, a non-competition clause is provided (which the Company may waive) by virtue of which the manager undertakes not to carry out competing activities for one year, extendable for a further year, starting from the moment in which the working activity ceases, in exchange for the recognition of a monthly indemnity equal to 5/10 (or 6/10 in the event of dismissal) of the gross monthly salary calculated on the basis of the average of the previous twelve months; **(ii)** for one

manager, a severance indemnity is provided, corresponding to the payment of eighteen months' salary in the event that the company intends to unilaterally terminate the relationship in the absence of just cause or objectively inadequate results.

6. FEATURES OF VARIABLE REMUNERATION COMPONENTS

6.1. Introduction

As stated in point 5, the Policy provides for two distinct forms of variable components for remuneration, namely:

- a variable remuneration determined on an annual basis (“**MBO**”);
- the medium to long-term variable component (“**LTI**”).

The Board of Directors, assisted by the Appointment and Remuneration Committee: **(i)** determines the values of the two variable components; **(ii)** defines the criteria and *performance* objectives for the achievement of the variable remuneration components in light of the multi-year industrial and ESG plans approved by the Board, thereby ensuring that they are consistent with the Group's medium- and long-term objectives; **(iii)** verifies, with the frequency envisaged by each variable component, the achievement of the set objectives and defines the compensation/rights (in the case of share-based plans) that may have accrued.

The Board of Directors may attribute *una tantum* compensation to Managers with strategic responsibilities in the event of extraordinary transactions. Such *una tantum* compensations presuppose that the Board of Directors, in advance, **(i)** has assigned to the Manager with strategic responsibilities an extraordinary objective, **(ii)** has defined measurable parameters and *targets* for value creation, and **(iii)** has established a *una tantum* remuneration amount per target, as well as the criteria for variation of the same based on the level of achievement of the objectives, within the limits of a predefined maximum amount.

6.2. Variable remuneration determined on an annual basis (“MBO”)

The annual variable remuneration (MBO) accrues depending on the achievement of: **(i)** specific economic and financial performance objectives based on the Group's *budget*, from year to year defined by the Board of Director (EBIT and *Free Cash Flow* of the Group and/or of the *Business Unit* for the *Chief Executive Officers*), functional to the achievement of the objectives of the medium-long term business plans, **(ii)** specific objectives of financial and non-financial nature, the achievement of which can however be assessed on an objective basis.

It is specified that with regard to the objectives referred to in the previous point **(ii)**:

- for the *Chief Executive Officers* of the *Business Units*, these are mostly economic objectives (such as *business acquisition targets*, industrial efficiency, results of specific geographical areas or product lines);
- for the remaining Managers with strategic responsibilities, these are mostly non-financial objectives, but assessable on an objective basis, referring to the priorities of the assigned function, in line with *best practices* for planning and control activities and in particular for the Manager in charge of preparing the corporate accounting documents (timeliness and completeness of reporting, quality of the integrated financial statements, quality and efficiency of the control structure, etc., assessed by the Control, Risk and Sustainability Committee also in light of the results of the legal audit activity, as reported in the additional report for the Internal Control and Audit Committee).

It is foreseen that 100% of the variable compensation will be paid upon achieving 100% of the defined targets; the amount may vary between a minimum of 0% and a maximum of 150% depending on the degree of achievement of the targets assigned, according to predefined criteria.

MBO remuneration shall accrue at the date of approval by the Shareholders' Meeting for the financial statements for the year to which they refer, subject to the existence of an employment relationship with the Company at that date.

No further time deferral is envisaged for disbursement since the Board of Directors believes that the medium-long term variable compensation referred to in the point 6.3, in itself deferred, has sufficient weight to incentivise an orientation towards medium and long-term management policies.

Furthermore the Board of Directors shall ensure that the targets set, and the method by which the results achieved are assessed, are such as to prevent them from being achieved through short-term management choices that could potentially undermine sustainability and/or the ability to generate profit in the long term.

Finally there are mechanisms for correction of the variable component of short-term remuneration after the event (so-called claw-back), which allow the Company to request the repayment, in whole or in part, of variable remuneration paid on the basis of financial statement data that proves to be incorrect.

6.3. Medium to long-term variable component (“LTI”)

The tool chosen for the medium-long term variable component (LTI) consists of *stock grant* plans and, with particular reference to the 2025 Policy, the 2025 Plan, which shall be submitted to the Shareholders’ Meeting for approval.

The Board of Directors believes that incentive plans based on the conditional entitlement of rights to the free assignment of Shares of the type to which the 2024 Plan belongs represent the most effective instrument that meets the interests of the Company and the Group, for the reasons set out below:

- first of all, it is an incentive way that stimulates the pursuit of medium- and long-term goals, as it involves a deferred payment over a long period of time;
- moreover, it is an incentive way that aligns the interests of management with those of shareholders and all stakeholders, as the size of the benefit is commensurate with the creation of value in the medium to long term, depending on the achievement of performance targets, including ESG, of the Group and the value of the share at the time of the year;
- lastly, it is a valid retention tool, in that the vesting of rights is conditional on the beneficiaries remaining with the Group, strengthening the management's bond with the company and fostering the consolidation of an experienced management, which is one of the strengths of an organisation of Sogefi's complexity.

The 2025 Plan - submitted to the Shareholders’ Meeting for approval - provides for the following:

- attribution of Units, free of charge and non-transferable *inter vivos*, each of which may give rise to a right to the allocation of a Share free of charge in certain circumstances;
- Units shall be divided into three categories:
 - Time-based Units, whose entitlement shall be conditional upon the Beneficiary permanence in the Group and elapsing of the time of vesting; and
 - Performance Units of *type A*, whose vesting is conditional, in addition to the Beneficiary’s permanence in the Group and the elapsing of the time of vesting, on the achievement of performance objectives of the Share with respect to the value of the shares of a basket of benchmark companies;
 - Performance Units of *type B*, whose vesting is conditional, in addition to the Beneficiary’s permanence in the Group and the elapsing of the time of vesting, on the achievement of economic-financial and ESG objectives, measured based on the comparison between the economic-financial and ESG results actually achieved and the economic and non-economic-financial objectives defined by the Board of Directors at the time of the approval of the plan regulations, on the basis of the multi-year plans approved by the Board;

In this last regard, with reference to *stock grant* plans approved to date, the Board of Directors has identified, as economic-financial parameters, EBIT and *Free Cash Flow* as resulting from the financial statements approved by the Company and, as non-economic financial parameters, certain specific ESG objectives integrated into the industrial plans of the Company and detailed in the Sustainability Report.

- the vesting of the Units begins at the end of two years from the Grant Date and occurs over the following three financial years;

- Units that are under entitlement must in any case be exercised before the deadline of the tenth anniversary of the Grant Date;
- in the event of the termination of the employment relationship between the Beneficiary and the Company or one of its subsidiary, for whatever reason, or in the event of termination of the control relationship between the Company and one of its subsidiary, the Beneficiary retains ownership of the Units that have already vested and loses ownership of those that have not yet vested at the moment of the termination of the employment relationship (with the sole exception of the death of the Beneficiary, which means that all the Units, both those that have already vested and those that have not yet vested, are transferred to the heirs) or the control relationship by the Company over the relevant subsidiary; without prejudice to the above, it is the right of the Board of Directors, at its own discretion, to allow one or more of the beneficiaries to keep the rights resulting from the plan even in the event that they should cease to exist, and in particular to keep part or all of the Units not yet vested at the date of termination of the employment relationship or of the control relationship by the Company over the relevant subsidiary;
- the Beneficiary is required to hold a number of Shares at least equal to 10% of those granted continuously until the sixth anniversary of the Grant Date (the “minimum holding”), unless otherwise authorised by the Board of Directors.

It should be noted that the overall vesting period of the rights for a prevalent part of the Plan is below the five years recommended by the Corporate Governance Code, and more precisely around four years, as the Board of Directors believes that in relation to the Group’s reference market, which is very complex and competitive, further increasing the vesting period could reduce the effectiveness of the instrument.

For a more detailed description of the 2025 Plan’s features, see the information document prepared under sect. 84-*bis* of the Rules for Issuers, made available at the Shareholders’ Meeting called to approve the Financial Statements as of 31 December 2024, available on the Company’s website www.sogefigroup.com, Shareholders section – Shareholders’ Meetings.

The Board of Directors reserves the right, in the interest of the Company, to establish for one or more Managers with strategic responsibilities the attribution of an additional long-term monetary incentive (pre-defining the minimum and maximum *target* amount, measurable parameters and *targets* for value creation, as well as accrual criteria based on the level of achievement of the objectives) in the event that this is deemed necessary or appropriate for the purposes of retention and stabilization of *top management*, in a market characterized by a non-positive cycle and a complex transformation process, also linked to *e-mobility*.

7. EXCEPTIONAL CIRCUMSTANCES PERMITTING EXCEPTIONS TO THE POLICY

The Board of Directors, without prejudice to the provisions of Regulation No. 17221 of 12 March 2010, may deviate from the elements of this 2025 Policy temporarily and in the presence of exceptional circumstances, to be understood, in compliance with art. 123-*ter*, paragraph 3-*bis* of the TUF, as situations in which the deviation from the remuneration policy is necessary for the pursuit of the long-term interests and sustainability of the Company as a whole or to ensure its ability to stay on the market, or in case of extraordinary transactions or performances that the Board of Directors deems worthy of additional compensation, even if due to their exceptional and unpredictable nature they have not been included in the extraordinary objectives previously assigned.

Exceptions to the Policy are assessed by the Board of Directors in the light of the opinions of the Appointment and Remuneration Committee and the Committee for Related Party Transactions, in compliance with the Company’s *pro-tempore* Rules on Related Party Transactions. In the case of derogations, the Company’s Report will provide details of the specific elements and circumstances that led to the derogation, giving evidence of their exceptionality, the specific purpose and the procedure followed.

- as Chief Executive Officer: a gross emolument of Euro 76,000, calculated *pro-rata temporis* on the basis of the fixed gross annual emolument of Euro 130,000;
- as General Manager: **(i)** a gross remuneration of Euro 200,000, calculated *pro-rata temporis* on the basis of a fixed gross annual remuneration of Euro 300,000 and **(ii)** rights deriving from participation in a compensation plan based on shares of the Company until the date of termination of the employment relationship (for the rights attributed and accrued by the Chief Executive Officer and General Manager, please refer to Table 3A);

Furthermore, certain benefits apply, depending on the regulations applicable in the country of residence, as described in Section I, point 5.

1.2 Indemnities for Termination of Post or Employment Relationship

It should be noted that, in the course of 2024, except as stated above in relation to the departure of Mr. Sipahi, with reference to directors, and Managers with Strategic Responsibilities: **(i)** no new agreements have been entered into that provide for compensation in the event of termination of office or termination of employment; **(ii)** no agreements have been entered into that provide for the assignment or maintenance of non-monetary benefits in favour of individuals who have terminated their office or consultancy contracts for a period following the termination of the relationship; **(iii)** no agreements have been entered into that provide for compensation for non-competition undertakings.

2 Other information

2.1. Deviations from the Remuneration Policy during the year

No exceptions to the Remuneration Policy occurred during 2024.

2.2. Application of *malus* or claw-back mechanisms

During 2024, there were no circumstances that could have led to the application of the malus or claw-back mechanisms.

2.3. Remuneration, performance and average employee remuneration

With regard to the analysis of the evolution of the compensation of the members of the Board of Directors and the Board of Statutory Auditors (individuals affected by the Policy and identified by name), over the last three years the compensation has remained unchanged.

Over the last three years the consolidated net result of the Group has recorded a very favourable evolution.

Consolidated FS Sogefi Group Euro/000	2022	2023	2024
Operating Net Result	(6.712)	6.364	17.972
* The operating net result has been calculated excluding the Filtration Division sold in 2024.			

In any case, despite the difficulty of defining the average evolution of salaries in the Group due to the geographical complexity, the employees have been assured an average growth dynamic of salaries at least equal to that established by the applicable collective legislation.

2.4. Information on how the vote cast by the shareholders' meeting on the second section of the previous year's Policy was taken into account

See above sub-Section I, point 2.3.
