## PERFORMANCE OF THE MARKET

In the third quarter of 2023 world car production increased by 3.8% compared to the third quarter of 2022, which had in its turn reported growth of 29.5% on the previous year.

In the first nine months of 2023, world production of motor vehicles rose by 9% compared to the corresponding period of 2022. S&P Global (IHS) expects that the fourth quarter will see growth in world car production of 3.5% compared to fourth quarter 2022, forecasting for the whole year 2023 a rise of 7.5% on 2022, with growth in all the main geographical areas.

## SUMMARY OF SOGEFI'S PERFORMANCE IN THE FIRST NINE MONTHS OF 2023

**In the first nine months of 2023, the consolidated revenues of the Group recorded growth of 8.1%** on the first nine months of 2022; at constant exchange rates the increase would have been 10.7%, thanks to the 7.1% rise in production volumes and the 3.4% rise in selling prices.

**The results were positive and showed a significant improvement on those of the first nine months of 2022:**

- **EBITDA**, totalling € 173.9 million, was up by 14.7% thanks to the growth in revenues and the greater contribution margin;
- **EBIT**, which came to € 89.1 million, was up by 39.5%, with an EBIT margin of 7.1% of revenues, up from 5.5% in the first nine months of 2022;
- **Net income** came in at € 45.8 million (+39% compared to € 33.0 million in the first nine months of 2022);
- **Free Cash Flow** was positive for € 38.4 million (€ 31.6 million in the first nine months of 2022);
- **Net debt (before IFRS 16)** stood at € 192.7 million at 30 September 2022, down from € 224.3 million at 31 December 2022.

**Business activity performed positively**, with a good percentage of contracts for E-mobility (28% of the value of the new contracts acquired in the first nine months of 2023); the acquisition of new businesses was particularly dynamic in North America, China and India.

In particular, **Air and Cooling** obtained important contracts in North America, which will make it possible to increase market share in that area, and in China, including various orders from the car manufacturer BYD. 32% of the value of the new contracts obtained in 2023 by the business unit were for parts for E-mobility platforms.

**Suspensions**, in addition to having obtained new orders in Europe mainly for the supply of stabilizer bars, also signed a contract in China with an innovative local player who aspires to becoming one of the main producers in the electric car market.

## CONSOLIDATED RESULTS FOR THE FIRST NINE MONTHS OF 2023

**Revenues** for the first nine months of 2023 came in at € 1,252.5 million, posting a rise of 8.1% at current exchange rates and of 10.7% at constant exchange rates compared to the same period of 2022.

Performance of revenues by geographical area	9M 2023 (in €m)	9M 2022 (in €m)	Var. % 2023 vs 2022	Var. % at constant exchange rates	Market (var. %)

North America	270.7	248.0	9.2	13.3	11.3
South America	83.5	85.2	(2.1)	3.1	6.0
India	83.4	77.4	7.8	16.8	6.7
China	78.1	84.6	(7.6)	0.3	4.8

<b>TOTAL</b>	<b>1,252.5</b>	<b>1,158.7</b>	<b>8.1</b>	<b>10.7</b>	<b>9.0</b>

Growth was very significant in Europe (+11.1%), North America (+9.2% and +13.3% at constant exchange rates) and India (+7.8% and +16.8% at constant exchange rates). However, in South America and in China revenues were down slightly because of the changes in exchange rates; at constant exchange rates, revenues were equivalent to or slightly higher than those of the previous year.

Sogefi's overall performance was substantially in line with that of the market; by geographical areas, its performance was better in NAFTA and India.

Performance of revenues by business sector	9M 2023 (in €m)	9M 2022 (in €m)	Var. %	Var.% at constant exchange rates
Suspensions	453.0	412.7	9.8	11.7
Filtration	435.0	403.0	7.9	10.1
Air and Cooling	369.7	345.9	6.9	10.7
Intercompany elimination	(5.2)	(2.9)		
<b>TOTAL</b>	<b>1,252.5</b>	<b>1,158.7</b>	<b>8.1</b>	<b>10.7</b>

All of the business units reported substantial revenue growth.

Revenues of Suspensions were up by 9.8% (+11.7% at constant exchange rates), with particularly positive performance in Europe (+14.4% at constant exchange rates) and India (+25.7% at constant exchange rates).

Filtration reported revenue growth of 7.9% (+10.1% at constant exchange rates), with the Aftermarket channel in Europe reporting +10.7% and India reporting +15.3% at constant exchange rates.

Air and Cooling reported a 6.9% rise in revenues (+10.7% at constant exchange rates), with growth of 14.5% at constant exchange rates in NAFTA.

**EBITDA**, totalling € 173.9 million, was up by 14.7% compared to the first nine months of 2022 (€ 151.7 million).

The contribution margin increased by 12.3% compared to the first nine months of 2022, thanks to the higher revenues and greater margins (% of ratio of contribution margin to revenues), rising from 27.7% in 2022 to 28.8%.

The impact of fixed costs on revenues (14.3%) was unchanged from the first nine months of 2022.

Other income/charges made a negative contribution to EBITDA of € 4.2 million, versus a positive contribution of € 5.5 million in the first nine months of 2022 and consist mainly of exchange rate differences.

**EBIT** came in at € 89.1 million, +39.5% from € 63.9 million in the first nine months of 2022. Its ratio to revenues increased from 5.5% in the first nine months of 2022 to 7.1% in the first nine months of 2023.

Financial expense, totalling € 16.4 million, was higher than in the first nine months of 2022 (€ 13.6 million) because the rise in interest rates affected the loans at variable interest rates.

Tax expense came to € 18.2 million (€ 15.0 million in the same period of 2022).

**Net income from continuing operations** was € 54.5 million, up from € 35.3 million in the same period of last year.

**The net result of “discontinued operations and assets held for sale”** refers to the sale, currently under negotiation, of the Suspensions business in Mexico; the result was a negative € 6.4 million (€ -1.1 million in the same period of 2022) and includes the net result of the business in the first nine months of 2023 and the best estimate of the income from the envisaged sale.

The group reported **net income** of € 45.8 million (€ 33.0 million in the first nine months of 2022).

**Free Cash Flow** was positive for € 38.4 million (€ 31.6 million in the first nine months of 2022).

At 30 September 2023 **shareholders’ equity**, excluding minority interests, stood at € 273.5 million, versus € 230.7 million at 31 December 2022. The increase mainly reflects the net result for the period.

**Net financial debt before IFRS 16** totalled € 192.7 million at 30 September 2023, down from € 224.3 million at 31 December 2022 and € 219.7 million at 30 September 2022. Including the financial payables for rights of use, in accordance with IFRS 16, the net financial debt stood at € 257.9 million at 30 September 2023, down from € 294.9 million at 31 December 2022 and € 292.7 million at 30 September 2022.

The **net income from continuing operations** in the quarter was € 20.2 million, up from € 13.4 million in the same period of the previous year.

In the third quarter a negative net result of € 5.0 million was recorded for “discontinued operations and assets held for sale” (€ -0.3 million in the same period of 2022), which refers to the Suspensions business in Mexico and includes, as well as the net result of the business in the third quarter, the best estimate of the income from the disposal.

## **SIGNIFICANT EVENTS THAT HAVE TAKEN PLACE SINCE 30 SEPTEMBER 2023**

Since the close of the period, there have been no significant events that could have an impact on the economic, patrimonial or financial information contained in this press release.

## **OUTLOOK FOR THE YEAR**

Visibility as to the automotive market trend in 2023 remains limited due to the uncertainties regarding the macroeconomic evolution in a context of high inflation and still rising interest rates.

For the fourth quarter of 2023, *S&P Global* (IHS) expects world car production to grow by 3.5% compared to the same period of 2022.

As far as raw materials are concerned, in the first nine months of 2023 prices trended downwards and as yet there have been no signs of any inversion of the trend. As for energy costs, after a phase of containment, volatility remains high and could potentially intensify due to the new geo-political tensions.

Assuming there are no factors that could cause a deterioration of the macroeconomic scenario from today's levels, for 2023 the Sogefi Group expects to see revenue growth of over 5% and an increase in profitability, excluding non-recurring charges, in line with the results reported for the first nine months of the year.

*The executive responsible for the preparation of the Company's financial statements, Maria Beatrice De Minicis, hereby declares, in compliance with the terms of paragraph 2 of Article 154-bis of the Finance Consolidation Act (TUF), that the accounting figures contained in this press release correspond to the results documented in the Company's accounts and general ledger.*
