

Ervin Riccobon is an independent top management consultant and advisor, focused primarily on the automotive, assembly, aerospace, defence and high-tech sectors.

Riccobon has matured several years of managerial experience in the automotive sector: firstly in Ferrari (2012-2016), where he was in charge of product and process competitiveness and he was part of the top management team who led the company to the IPO in late 2015 and later in Fiat Chrysler Automobiles (2016-2018), where he had a global role encompassing product cost optimization, long-range product portfolio management and strategic initiatives.

In both cases he reported directly to Group CEO

Riccobon has also matured a long experience in top management consulting in McKinsey & Company (1994-2012; Partner in 2000 and Director in 2005). During his career he served several leading clients in Europe, USA, China, India and Brazil on operations improvement, strategy, organization and global alliances. He led the Advanced Industries Practice in the Mediterranean and was part of the global leadership group of the Automotive and Operations Practices.

Riccobon holds a degree maxima cum laude in Mechanical Engineering at the Politecnico di Torino and a MBA at the SAA of Turin.
