

Frédéric Sipahi

Frédéric Sipahi is the Managing Director of Sogefi Group.

Born in 1981, Mr. Sipahi is a French citizen and holds a master's degree in finance. He has worked since 2003 in the automotive sector, initially in PSA, then in Faurecia, holding roles of increasing responsibilities in Finance and Controlling.

He joined Sogefi in 2012 as Chief Financial Officer of Air&Cooling Business Unit. In 2013, he has been appointed Engine System Business Unit Chief Financial Officer, on a perimeter of 22 plants and 5 R&D Centers in Europe, Americas, India and China, supporting the management of 800 M€ of Turnover and 4500 workers.

In 2015 he was promoted General Manager of the Air & Cooling Business Unit, where he led the division turnaround, achieving a significant improvement in performance, both in terms of increased profitability and cash generation; he also achieved positive results in 2020, despite the extraordinary context. He also reoriented the division's product strategy, by effectively positioning it towards new technologies.

In 2019 in addition to Air &Cooling, he extended his responsibilities as General Manager of Filtration Business Units, where he launched major rationalisation and efficiency enhancement programs.
